To:

Dear Rev. McGeown,

This morning I read your email that you sent out on May 16 regarding the deposition of Elder Chuck Doezema.

In that email, you mentioned that you did not have the email (and presumably the attachments) that Elder Doezema emailed to the congregation of First RPC.

Also, you mention as fact that First RPC is "full of mold."

I do plan on responding to your email in a blog post, but in the meantime, I think it is important that you have the relevant facts and documents, so I am going to forward you the email (with attachment) that Elder Doezema sent to the congregation as well as the mold report that the council received as part of their work. All of these have been made public, either by the council, or by Elder Doezema, and I think it is important that you have them.

I look forward to responding to your email.

Sincerely,

Dewey Engelsma
